DreamA Talents

Yurika and Rentaro Shima

Yurika and Rentaro Shima are two of the world's youngest professional violin virtuosos. Finally of course because of their long experience. Yuriko for example took her first lessons at the age of 3. This was in 2001. Many awards and musician prizes influenced their parent's decision, that the two children should get the best music education in Vienna. So they left their home Japan and settled to Austria. The questions, what further targets both young musicians have and why Vienna is still seen as a music capital will be element of Yurika's and Rentaro's performance at DreamA's Lounge. Of course a presentation of their extraordinary talents won't be missing too.
